And Whereas we believe there are three exhibitions at present on the Lower Mainland and Vancouver Island, receiving large Provincial and Dominion Government grants, these exhibitions being within an area of 100 miles, serve the same exhibitors and visiting public;
And whereas the great livestock, agricultural and horticultural industry of the Southern Interior of this Province, has at present no access to any conveniently located fair or exhibition receiving any of the Dominion Government Class "A" fair grants, or to any fair receiving other than a small percentage of the Provincial Government grants;
And whereas we agree with the continuance of all smaller fairs already established as of great advantage to the various local communities and as feeders for larger fairs and exhibitions;
And whereas the North Okanagan Fair at Armstrong has already established a plant and favorable reputation for the carrying on of a truly agricultural fair in a manner above the average of similiar kinds of fairs or exhibitions in this Province;
Be it resolved, that we strongly urge on the Minister of Agriculture of the Province of British Columbia and the Minister of Agriculture of the Government of the Dominion, the necessity of greatly increased assistance to this fair which has proved such an education to those engaged in Agriculture over a wide area of this part of the Province

This would amount to approximately \$800.00 per annum. THE CORPORATION OF THE TOWNSHIP OF SPALLUMCHEEN.

Regular meeting of the Council.

Armstrong, B. C.
April 12th. 1930

Present:- Reeve McCallan, Councillors Hornby, Shiell, Johnson,
Rochester and Matheson.

Shiell-Johnson:-

That the minutes of the meetings of
March 8th. and 28th. respectively, be adopted as amended.

Carried.

Correspondence:

(1) N. A. Hayes offering to use tractor on Municipal work.
Matheson-Johnson:-

That the letter from Mr Hayes be
received and filed. Carried.

Reports:-

The Reeve reported that Mr C. W. Mobley, Dominion Forest
Ranger, had interviewed him and stated that the Forest
Branch would in future hold the Municipality responsible
for fighting fires within the Municipal limits, or fires
originating within the Municipality. If available,
assistance would be given in the way of equipment and
advise.

Matheson-Johnson:-

That the report from the Reeve be
received. Carried.

The Reeve reported that Mrs Chapman, who was a daughter
of E. Atherton, had brought her sisters back from Calgary.
The father was not in a position to maintain them and she
asked assistance from the Council. Last year the Council
had given a cheque to Mr Barnes, Municipal Constable, for
\$75.00 and it was understood that he would pay this amount
over to Mrs Chapman on the understanding that she would
care for these children at her home in Calgary. It now
appeared that \$35.00 only had been paid over and Mr Barnes
owed the Municipality the sum of \$40.00, which liability he
admitted. After consulting with several of the Councillors,
it had been agreed to allow Mrs Chapman \$15.00 towards the
transportation expenses back to Calgary and allow her the
sum of \$20.00 per month for six months, after which the
matter would be reconsidered, providing she would look
after these children. The father had promised to reimburse
the Council for the money expended on his children,
providing he could obtain employment.

Shiell-Rochester:-

That the report from the Reeve be received
and the action taken be approved. Carried.

The Clerk reported that on instructions from the Committee
appointed to look after the Fowler & Andrews' action, he had
taken up the matter of having Mr R. L. Reid assist at the
trial with Mrs Lindsay. Mr Lindsay thought that it was
an unnecessary expense as the case appeared to him to be
quite clear and he would not recommend that the step be
taken.

Shiell-Rochester:-

That the report from the Clerk be received.

Carried.

April 12th. 1930

Reports cont'd:

Councillor Shiell reported that the truck driver was not satisfied with the way the truck was working after having been reconditioned, as the engine was pumping oil.

The Reeve reported that he had interviewed Mr. J. Anderson in connection with the Council's offer regarding his agreement to purchase municipal land and he had stated that he was unable to pay the amount and desired the Council to take the land back. The Reeve recommended that an extension of the Council's offer be made to November 1st. next.

Johnson-Matheson:-

That the report from the Reeve be received and his recommendation be approved.

Carried.

Delegations:-

Messrs B. A. Thornton and J. Cross interviewed the Council on behalf of the Agricultural Society and asked the Council to endorse the following resolution; -which had been passed by the Society:-

"Moved by McCallum and Cross that we ask the Municipal Council of Spallumcheen to consider ways and means of acquiring additional land and erection of new buildings on the Fair grounds to the extent of approximately \$5,000.00 this accommodation being required for the proposed Interior Provincial Exhibition to be held here."

Mr Thornton stated that the Provincial grants for 1928 amounted to \$1500.00 and in 1929 to \$2,000.00, these grants being based on 25% of the prize money paid and certain additional grants. It was now proposed to make the local fair a Provincial class "A" fair and so obtain additional assistance from the Government, which would be about \$3500.00. In order to obtain this, additional accommodation would be required and the Department of Agriculture desired that the present name be changed. The City of Armstrong were submitting a by-law for about \$10,000.00 for the purpose of erecting a community hall on the fair grounds and this would also be used when required for fair purposes. He now asked the Municipal Council to submit a by-law for \$5,000.00 to be given to the Agricultural Society for purchasing additional land and erection of new buildings etc. - about \$1,000.00 would be required for purchasing land and the balance would be used for buildings and moving the present band stand.

Hornby-Shiell:-

That this Council go on record as endorsing the aims of the Agricultural Society and that a by-law be submitted to aid the said society.

Carried.

Johnson-Matheson:-

That the letter from Miss Hayhurst
be received and tabled. Carried.

In connection with Hospital matters, Councillor Hornby stated that about \$3,000.00 were standing on the books as unpaid since January 1st. 1929. It had not been possible for Miss Hayhurst to allow herself more than \$60.00 per month during that time while she had had to pay the head nurse at the rate of \$75.00 per month.

The Board of Hospital Trustees had in the past received a grant under the liquor control Act, but this was now discontinued and the per capita grant per patient had been raised approximately 25%. These grants were the only money which the Board had for maintenance purposes. The Board had a balance on hand of about \$40.00. The septic tank was again giving trouble and would have to be attended to.

Delegations:

Mr Edgar, Fire Ranger for the Dominion Government discussed matters regarding fires in the Municipality. Mr Edgar offered to administer the Act as in the past and bill the Municipality for any expense incurred for fighting fires which originate within their boundaries. There would be no charge for administering the Act. The Department would be responsible for fires originating on Crown lands and the Council could hold settlers responsible for fire starting on their property. Should the Council desire, they could administer the Act and the Department would assist with the loan of tools. If the Council thought fit, he would consult them before taking any steps to fight a fire. Mr Edgar stated that he was speaking on behalf of the Dominion Department only, and there was every likelihood that the Provincial authorities would be taking over from them in July.

Shiell-Johnson:-

That the proposal of Mr Edgar to administer the Forest Act within the boundaries of this Municipality be accepted and that he be asked, when issuing permits to burn, that the restrictions be made severe. Carried.

Report:

Councillor Hornby reported that Messrs Lockhart, Pinniger and Dockstader had offered to haul gravel onto their road for 70¢ per yard.

Shiell-Matheson:-

That the report from Councillor Hornby be received and that the matter be referred to him for his attention with power to act. Carried.

Councillor Hornby reported that the truck had been improved and another battery had been ordered to replace the one installed this spring. He had interviewed Mr W. A. Smith who had offered to supply gasoline for the truck out of the pump on a 2¢ margin and would supply oil at the same price as at present paid, and he would recommend that this offer be accepted.

Johnson-Matheson:-

That the report from Councillor Hornby be received and that his recommendation be acted upon. Carried.

Reports cont'd:

Cmfrs.

Councillor Rochester reported that, in conjunction with the Committee appointed by the City Council, an inspection had been made of the cemetery. It was decided to hire the services of a man to make various improvements and it had been agreed that each Council would expend the sum of \$150.00 for this year.

given recently in the Police Court, that there was some doubt
as to what standing the District had, as it appeared that no

Council to turn this system over to the District. They asked
the Council to take the matter up with the Solicitor and if
necessary to have a by-law submitted to the electors at the
annual election.

Delegations cont'd:-

Messrs Jas. Scott, F. N. Hales, Micus and Westhoff appeared before the Council in connection with the old Hutchinson Water System. Messrs Scott, Micus and Westhoff asked that the system be reconditioned and the cost charged to the owners of the land benefited.

Mr Hales stated that from the point where he tapped the main to the spring, he had maintained for the past few years: He stated his position as follows, without prejudice:- he did not dispute the right of the use of the water to the parties interested, providing the license had not lapsed and that his supply of water is not jeopardized - any money paid by him, in part to be refunded pro rata. He was willing, under conditions, to go in with the new scheme, supposing his present condition was improved. He would not consent to contribute to any major expense and was willing to forego any claim to the system, should he decide at any time to install a system of his own.

The Clerk stated that there was approximately 140 acres on this system of which the Municipality held 60 acres.

The Council promised to take the matter under consideration.
